

# Bringing Scripts from ENPS to Win-Plus

## Sending to Prompter from ENPS

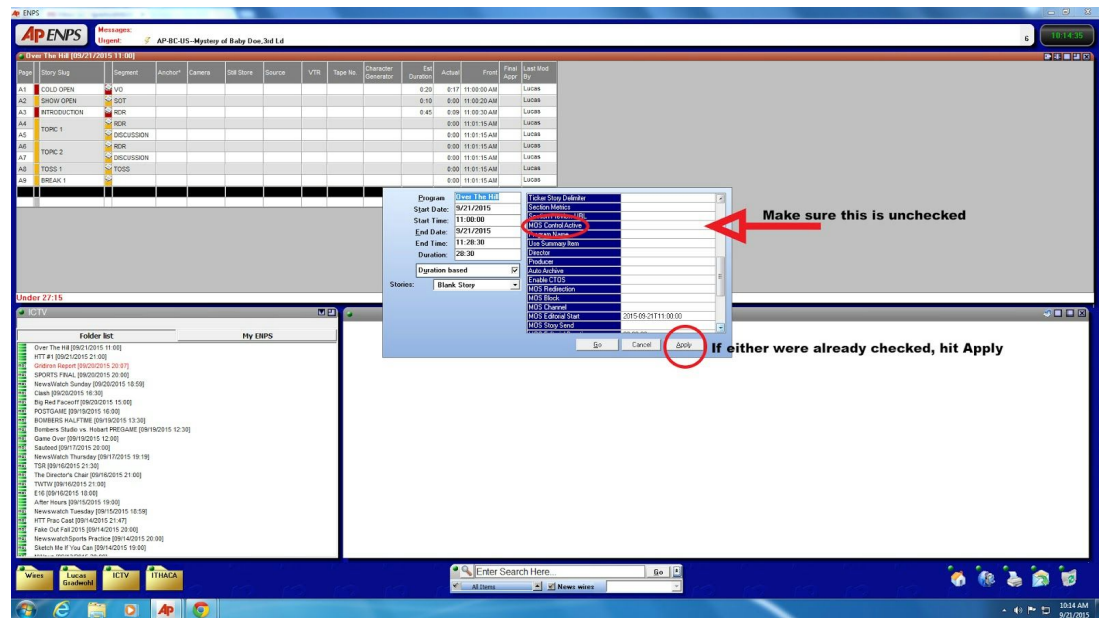

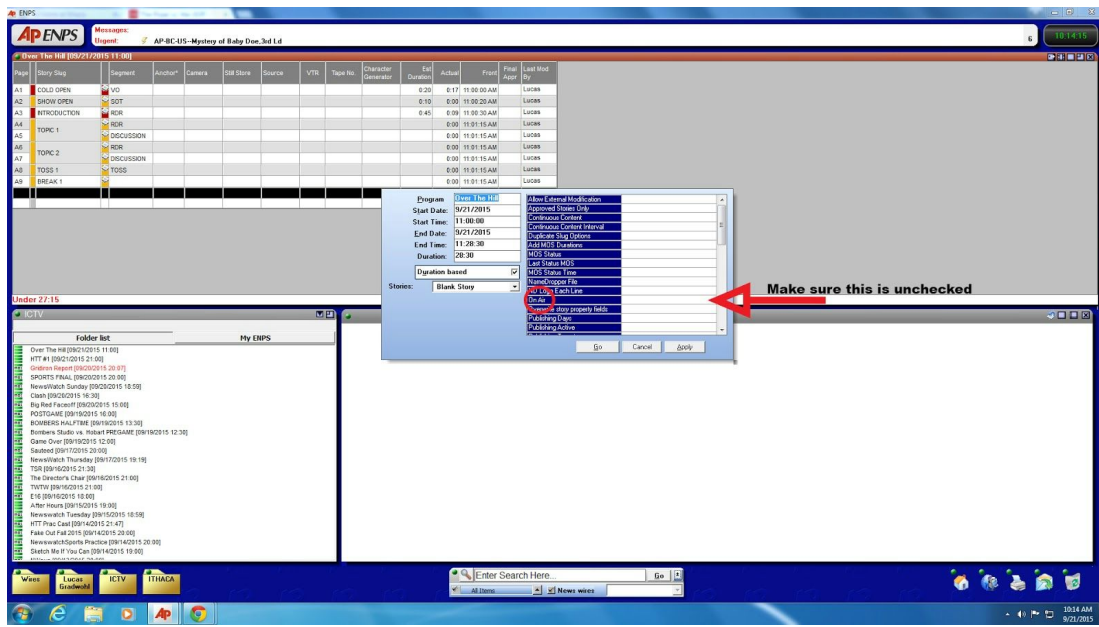

### Step 1. Initial ENPS Settings

1. Open your rundown in ENPS
2. Click the green rover in the top left corner of your rundown
3. Make sure “MOS Ready to Air” is **NOT** checked
  - a. if it is checked, uncheck it by clicking on it
4. Click properties

5. Make sure “On Air” is **NOT** checked
6. Scroll down and make sure “MOS Control Active” is **NOT** checked
  - a. \*\*If either were already checked, hit apply\*\*

7. Scroll down to “MOS Story Send” and make sure nothing is selected
8. Hit apply and then hit go

## Step 2. Open Win-Plus

1. On the Teleprompter computer in the studio, open the win plus software
2. If the ENPS window in Win-Plus isn’t already open, click on the “ENPS MOS” button in the top toolbar

## ICTV Prompter Guide Fall 2015

- a. \*\*This tells Win-Plus to start listening for ENPS to send it rundowns\*\*

### Step 3. Go Back to ENPS

1. Click the green rover and go back to properties
2. Scroll down to “MOS Story Send” and select the studio you are in
  - a. BDLA is Studio A, BDLB is Studio B

# ICTV Prompter Guide Fall 2015

The first screenshot shows the ENPS software interface with a table of stories. A dialog box is open, and a red arrow points to the 'MOS Story Send' option in the 'MOS Control' section. A text label 'Then Click MOS Story Send' is next to the arrow.

The second screenshot shows the same dialog box with a red circle around the 'MOS Story Send' option. A text label 'Select the studio you want to send it to' is next to the circle.

3. Scroll up and click “MOS Control Active”
4. Scroll up and click “On Air”
5. Hit apply and then hit go
6. Go back to the green rover and click “MOS Ready to Air”

### Step 4. Go Back to Win-Plus

1. Now when you go back to the Win-Plus window, and you should see your script there.
  - a. \*\*If it is not there, wait a minute and see if it shows up as sending is not always instantaneous\*\*

### Prompting

1. In order to actually show your scripts on the prompter, click the prompter icon in the top toolbar
2. In order for your prompter operator to see what the talent sees on the prompter, click "View" at the very top and then select "Smooth Scroll Prompt Preview"
