ICTV Rush Night Spring 2011

A note from your Station Manager

Hello Everyone,

Welcome to ICTV Rush Night for Spring 2011! ICTV turns 53 this year as we kick off another semester of the longest running student programming. This Spring we will be featuring 19 different shows, from game shows all the way to our live news programming! With all these shows, there are numerous opportunities to get involved with ICTV in various positions.

Be sure to stop by all the tables to see what their show has to offer. This is your chance to meet the producers and get an early start on getting involved. No matter what you are interested in, I am sure you will find something that suits you. We have numerous sports shows ranging from hockey all the way to basketball. Do you like news? Check out Newswatch 16, our news show that goes live three nights a week! We also have a great line up of field shows, if you prefer to work outside the studio.

Because of the large turnout at Rush Night, you may not hear back from Producers. If you do not hear back from anyone, please contact me and I will personally find a show for you to get involved with. At ICTV, we aim for every student who wants to get involved to have a chance to do so. By being a part of the station, you will gain lots of experience, and meet many new people along the way that may become lifelong friends.

With all the great productions this semester, I am confident to say that ICTV will continue to prove its excellence. We will produce professional quality television, as well as win numerous awards that YOU get to be a part of.

If anyone needs anything, please feel free to contact me or any of the executive staff. We are almost always in Park, and would be more than willing to help you. I look forward to meeting all of you and working with you throughout the semester!

Thanks for your support,

Nick Righi
Station Manager, ICTV

What is ICTV?

ICTV is many things. It is sports. It is news. It is drama. It is comedy. It is game show. It is variety.

ICTV is producers. It is directors, technical directors, camera operators, production assistants, lighting directors, audio directors, and technical operators.

But most importantly, ICTV is family.

A family of students from Ithaca College that come together to create some of the nation's best student programming. A family that sticks it out through hard drive crashes and missing field tapes, through dropped frames on Final Cut and computer freezes during export, and late nights in the Green Room so they can turn their show in on time.

Throughout your time involved with ICTV, you *will* meet people that become lifelong friends. And now, with that in mind, what are you waiting for? Get out there, find some tables, and sign up!

Welcome home.
